Description

This book is developed in line with the new syllabus for Early Childhood Development and Education. It consists of curriculum based, fun filled Mathematics activities with colourful illustrations to attract and hold the child's attention. The activities focus on:

Pre-number activities which include classification skills, designed to develop the child's ability to think and reason logically.

Number activities that aim to develop early mathematical concepts and skills.

Measurement activities that expose the child to basic measurement concepts and vocabulary.

This book is ideal for use both at school and at home for 5 + year old children.

Other titles in this series are:

- Mathematics Activities for Day Care (Level 1)
- Mathematics Activities for Pre-Primary II (Level 3)
